EDUCATION

University of Missouri - Kansas City
Bachelor of Science in Computer Science | Expected Graduation: Dec. 2029
GPA: 3.9

Relevant Coursework: Data Structures, Algorithmic Efficiency, Python Programming, Digital Systems, C++ Programming, Pointer Logic, Discrete Structures, Object-Oriented Programming

Activities: "Roo" Hackathon Participant (Fall 2025).

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, SCSS, React, Webpack
- **Backend:** Python, C++
- **Tools:** GitHub Copilot, GitHub, VS Code, Microsoft Azure, Azure Cosmos DB, Power BI, Hugging Face, OpenAI, Google Antigravity.
- **Concepts:** Performance & SEO Optimization, AI Fundamentals, Computer Architecture, Unit Testing, Memory Management, Data Engineering, OOP, REST APIs, Microsoft Data Fundamentals
- **Certifications:** Microsoft Certified: Azure AI Fundamentals (2025).

SOFTWARE PROJECTS

1SRCE | Full Stack Web Development, SEO

- Developed a commercial staffing website optimized for high performance and discoverability on search engines by implementing SEO best practices and Open Graph metadata.
- Managed the full development lifecycle as the primary product owner, translating business goals into high-performance UI/UX design and technical requirements
- Engineered a Webpack-driven build pipeline for minification and CSS extraction, reducing load times.

Video Game Transaction Analyzer | Python, Data Engineering

- Engineered a data-ingress pipeline to process large-scale transaction datasets.
- Implemented robust error-handling, input validation, and data-cleaning logic to ensure data integrity and system reliability.

- Developed automated unit tests to ensure consistent performance at scale.

Workout Builder & Tracker | Python, System Design

- Architected a modular fitness application to create and track custom workout plans, utilizing file I/O for reliable data persistence across user sessions.
- Modelled complex domains (Training Schedules, Splits, Exercises, etc.) using Object-Oriented principles.
- Implemented temporal logic using the Python 'datetime' library to automate fitness cycle scheduling

OOP Theatre Booking System | Python, Object-Oriented Programming

- Developed a theatre reservation system to manage seat inventory and booking states, demonstrating strong command of object-oriented programming.
- Optimized performance through dictionary-based data structures and algorithmic lookup.

PROFESSIONAL EXPERIENCE

Reach Digital Positioning | Owner / Founder | 2016 – 2024

- Shipped custom websites for local startups using HTML, CSS, and React.
- Managed the full delivery lifecycle and translated business requirements into technical solutions.
- Optimized website performance and user experience with SEO best practices and data-driven insights.

Prince Professional Window Cleaning LLC | Owner / Founder | 2014- 2024

- Managed complex operations for large-scale contracts, ensuring 100% reliability and safety.
- Led diverse teams and coordinated logistics in high-stakes environments such as high-rise buildings and active construction zones, demonstrating leadership and operational excellence.

1 Million Cups Kansas City - Ewing Kauffman Foundation | Volunteer Community Organizer | 2016 – 2019

- Community leader for the original chapter of a national startup community with over 100 chapters.
- Handled weekly event coordination by collaborating with startup founders and community organizers across the nation.
- Performed master of ceremony duties, facilitated Q&A, and handled technical support for livestreams.
