EDUCATION

University of Missouri - Kansas City
Bachelor of Science in Computer Science | Expected Graduation: Dec. 2029
GPA: 3.9
Relevant Coursework: Data Structures & Algorithms, Python Programming, Discrete Mathematics, Digital Systems, Java Programming
Activities: "Roo" Hackathon Participant (Fall 2025).

TECHNICAL SKILLS

- **Languages:** Python, Java
- **Tools:** Git, GitHub, VS Code, Microsoft Azure, Hugging Face, OpenAI, Google Antigravity.
- **Concepts:** Object-Oriented Programming (OOP), Data Structures, File I/O, REST APIs, and CRUD operations.
- **Certifications:** Microsoft Certified: Azure AI Fundamentals (2025).

SOFTWARE PROJECTS

Video Game Transaction Analyzer | Python, Data Engineering

- Engineered a data pipeline to ingest and validate large datasets of transaction records, simulating real-world backend data processing.
- Implemented robust cleaning logic to filter malformed data and ensure system stability, directly addressing data integrity challenges.
- Built analytical features to calculate revenue metrics and identify top-performing products, exporting actionable business insights to CSV.

Workout Builder & Tracker | Python, System Design

- Currently designing a persistent application to create and track custom workout plans, utilizing file I/O for reliable data storage.
- Modeling complex domains (Workouts, Splits, Exercises) using Object-Oriented principles, ensuring a modular and scalable codebase.
- Self-directed initiative to explore full lifecycle development, from requirement gathering to implementation and testing.

OOP Theatre Booking System | Python, Object-Oriented Programming

- Architected a reservation system to manage seat inventory and booking states, demonstrating strong command of class-based design.
- Encapsulated business logic for customer management and seat availability, creating a clean separation of concerns.

PROFESSIONAL EXPERIENCE

Reach Digital Positioning | Freelance Web Developer | Jan 2016 – Present

- Shipped websites using HTML, CSS, and JavaScript, managing the full delivery lifecycle for early-stage startups.
- Translated business requirements into technical solutions.
- Optimized performance and user experience using data-driven insights (SEO, Analytics).

Prince Professional Window Cleaning LLC | Owner / Founder | May 2014 – Present

- Managed complex operations for large-scale high-rise contracts (e.g., Flashcube, Garmin Campus), ensuring 100% reliability and safety.
- Led diverse teams and coordinated logistics in high-stakes environments, demonstrating leadership and operational excellence.

1 Million Cups Kansas City | Community Organizer | Jan 2016 – Jan 2018

- Curated a startup community by coordinating weekly events and facilitating connections for local entrepreneurs.
